

A secure, automated international online trading market with same day settlements

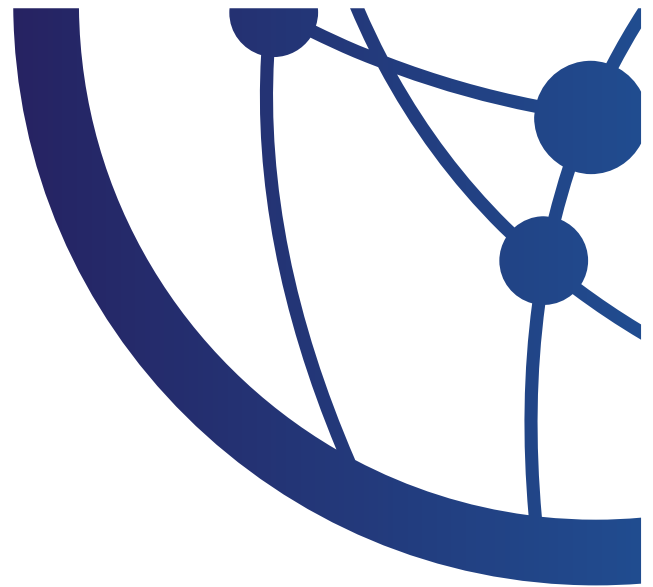

Bank of Telecom® delivers a unique blend of telco and fintech to help you get the most out of today's challenging international voice market.

With over 100's routes from 1100+ carrier Members across 130 countries, we carry millions of retail and wholesale voice minutes every month. Members benefit from \$20 same-day settlement fee via Bank of Telecom's FX partners Western Union and AMEX, as well as a host of other benefits to ensure your business runs as cost-effectively as possible, so it's no surprise that we see an average of 30 new Members joining every month.

- Save around \$50 on bank wire fees — choose your own payment terms to trade on and any value above \$300 is paid the same day.
- Improve cash flow — the combination of choosing your own payment terms and same-day settlements mean that your cash flow is improved by at least 3-5 days so you don't need to hold additional funds in your bank just to wait to settle.
- Peace of mind — all trading Members are insured to a \$US trade limit advised by leading credit reference companies.
- Weekly access to over 500 rate sheets that automatically test all destinations for CLI, NCLI, FAS, PDD and audio quality.
- Dedicated, multi-lingual expert account management to help you negotiate special deals.

Value Added Services to help maximise your revenues

Bank of Telecom members have access to a number of Value Added Services that we have made available to help you make informed decisions based on market conditions, as well as increase your sales:

- Free CLI and NCLI test reports.
- Free voice quality reports.
- Increase quality and sales with free traffic cleansing.
- Raise your ASR% and build your traffic with transcoding.
- HLR look up.
- Enhance decision-making with free market reports.

It only takes 24 hours to verify new registrations for the Bank of Telecom and with account management teams based UK, Europe, Latam and China branches, we're here to help you make the most out of every international minute. Bank of Telecom is a great place to trade global minutes, increase operational efficiencies, reduce overheads such as billings and collections, while saving on international settlements and freeing up your cash. We look forward to welcoming you to the Bank of Telecom soon!

Contact our global, multi-lingual team today

You can trade in English, French, Spanish, Russian or Chinese at the Bank of Telecom and we have a dedicated, global account management team to help grow your business, who can speak in the above languages, as well as Portuguese, Turkish, Romanian, Moldovan, Ukrainian and Hindi.
